9:00 am - 4:30 pm EST

Marriott Griffin Gate Resort & Spa, Lexington, KY

**One Day Pre-Conference Workshop
Seven (7) Continuing Legal Education Credits (CLEs)
Offered In Conjunction with**

In April of 2011, the United States Department of Education issued a “Dear Colleague” letter to re-affirm to schools and universities their obligations to students under Title IX of the Civil Rights Act. Commonly linked to equity in sports, Title IX also forbids sex discrimination in education, including sexual harassment and sexual assault. Schools must ensure that there are prompt and equitable proceedings in sexual assault cases, that they use the preponderance of the evidence standard, that proceedings remain confidential to the extent possible, that victims be given resources, and that they take affirmative steps to ensure that staff and students are trained in sexual assault and that the policies are transparent and accessible. Enforcement, however, depends greatly on victims and others being aware of their rights and having access to legal assistance. This day long institute will cover the basic requirements of the law and strategies for keeping campuses safe. *Lunch included. Cost: \$100.*

C4: It's Rainin' Men: Releasing the American Male to Own Their Role in Violence Prevention

Sally Evans, MA, The VIP Center, Lexington, KY

In order to create sustainable social change around violence, a critical mass of people need to engage in a new set of behaviors. Often we overlook the critical role men play in the progress of prevention and the growing number of males who have a personal connection to this issue. What is the role of men in ending violence against men and women and how can we effectively engage them? Our societal, organizational, and personal tendencies can often alienate men and limit them from embracing the role they can play in this movement. To reverse this, we must create environments that empower men to act. Participants will discover key reasons why men are not involved with prevention and innovative ways to include them in marketing, programming, and intervention.
